what is the AGF?

Haiti is a **small island in the Caribbean,** over 4,300 miles from the UK. In **January 2010** it was hit by a huge earthquake that sadly killed many people and destroyed their homes and businesses.

Andrew Grene was working for a peacekeeping organisation called the **United Nations (UN)** in Haiti and died, along with many of his colleagues, in this earthquake. His twin brother **Gregory Grene** and best friend **Tim Perutz** decided to set up a charity in his memory and raise money for the country he loved.

The **Andrew Grene Foundation (AGF)** has built a school, **The Andrew Grene High School,** which has over 300 students and also lends money to business women in a rural part of the island called Aquin.
